

The Hidden level 3, part 5D

- 1) entrance cave, a bit of dust... maybe some footprints leading in, but none coming out.
 - 2) long cave; mushrooms, toadstools, rocks, a small tree
 - 3) long cave; a pile of rocks, corridor to room 4 and room 5
 - 4) rectangular room; 130' x 30' x 25' 3 trees, blue toadstools, 2 piles of rock. A portcullis in front of a secret door. The portcullis is attached only at the floor.
 - 5) a small room, some of the turf is loose, but there is nothing under it. 2 skeletons.
 - 6) odd-shaped room with a blue toadstool, 2 piles of rocks, 3 small trees and a small chest with a few silver and copper coins in it. Thumping the bottom sounds like it is hollow, but it is empty.
 - 7) L-shaped room; 5 large barrel cacti, 2 bushes
 - 8) a wandering passageway. Adventurers can just see a chest off in the distance, path blocked by blue toadstool. There are a few gold and silver coins in the chest.
 - 9) A big room with 3 chests surrounded by various cactus plants. Four piles of rocks.
- The few coins are barely worth the effort of looking for them.
